Notes:

Enrollments reflect degree- or credential-seeking undergraduate enrollments. The graduate or transfer rate is drawn from IPEDS and represents the share of students who either graduate with a degree or credential from the institution or transfer to another institution within 8 years. The 8-year outcome is the only measure that includes information on transfer out. Detailed data guidance is provided at <http://go.unc.edu/countydata>

Local Cross-Sector Promising Practice: Virtual Academy Collaborative

The Innovation Project (TIP) consortium consists of school districts working together on projects to advance public education in North Carolina. One project is creating virtual course packages for Math I, Math II, Math III, English I/II, and Biology. In Hoke County teachers use the materials to remediate struggling students and extend learning for students needing enrichment. Some teachers like the resources so much they have created blended learning stations to use them in class.

We identified this example of an emerging cross-sector promising practice in partnership with local leaders. If you have additional examples you'd like to share with myFutureNC, please respond to this short survey.
