Notes:

Enrollments reflect degree- or credential-seeking undergraduate enrollments. The graduate or transfer rate is drawn from IPEDS and represents the share of students who either graduate with a degree or credential from the institution or transfer to another institution within 8 years. The 8-year outcome is the only measure that includes information on transfer out. Detailed data guidance is provided at <http://go.unc.edu/countydata>

Local Cross-Sector Promising Practice: Growing Change

Growing Change salvages places and people that have been abandoned by converting a defunct prison site into a sustainable farm and education center. Program participants and members of the broader community achieve education, vocational training, and service learning experience by providing job training to young people who have agreed to complete a number of hours working on the farm as an alternative to entering the court system.

We identified this example of an emerging cross-sector promising practice in partnership with local leaders. If you have additional examples you'd like to share with myFutureNC, please respond to this short survey.
